

Self-Screening Process

We appreciate your support and partnership as we make sure our students continue to have a safe and positive learning environment. Each day before you send your child to school, we are asking you to take part in a "screening" process for your child. This screening is for the protection of your child, their friends at school and our dedicated UCS team.

If the answer is yes to ANY of the following, do not send your child to school.

You should also promptly contact the Macomb County Health Department at 586-463-3750 or family physician for further guidance.

I. In the past ten (10) days, my child has tested positive for COVID-19. Please contact the school attendance line to report absence due to COVID-19.

II. In the past fourteen (14) days, my child has been in close contact with someone who has tested positive for COVID-19. This includes being notified of close contact by a reliable source in which the positive carrier may not always be named but tracing information has been gathered. Please contact the school attendance line to report being in contact with someone diagnosed with COVID-19.

III. My child is experiencing one or more of the following illness or illness symptoms that I consider different from any explainable circumstance or known existing baseline condition such as seasonal allergies, asthma, migraine headaches, etc.:

- Fever of 100.4 degrees Fahrenheit or higher when taken by mouth
- Sore Throat
- Uncontrolled cough that causes difficulty breathing
- Diarrhea, vomiting or abdominal pain
- Severe headache, especially with fever

Please notify the school attendance line to report an absence due to illness.

Additional Symptom Guidance

If you answered yes to any of the previous questions, we strongly encourage you to have him/her tested (both RAPID and PCR nasal swabs) and follow up with a physician.

For site locations that offer testing within your area please visit the following website:

<https://www.macombgov.org/covid19-canigettested>

Thank you for continuing to keep our students and staff safe.

Working together, we can continue to move forward to our goal of having all students returning for in-person services in our schools.
